## SUMMARY

---

A passionate full-stack developer focused on building efficient web applications with Node.js, Express, Next.js, and MySQL. I enjoy writing clean, maintainable code and creating scalable, user-friendly systems that deliver real value.

## EXPERIENCE

---

**PT Hartono Istana Teknologi** - Feb. 2025 - Present

*Application Developer Intern*

- Developed and maintained internal web applications that help HR teams manage employee competencies and daily operations.
- Built complete features from creating interfaces with EJS templates to handling backend logic and database processes using Node.js (Express.js).
- Worked together with users and team members to refine requirements and ensure smooth system implementation.
- Integrate RESTful APIs to connect multiple internal systems and keep data consistent across platforms.
- Also explored mobile development to understand how backend and web systems integrate with mobile applications.

## EDUCATION LEVEL

---

**Bina Nusantara University** - Aug. 2022 - Present (Expected Jan. 2026)

*Bachelor of Computer Science, GPA: 3.52/4.00*

- **Relevant Coursework:** Web Programming, Data Mining, Database Design, Software Engineering, Artificial Intelligence

## CERTIFICATIONS & COURSES

---

[2024] [CODEPOLITAN Course “Belajar ReactJS”](#)

[CODEPOLITAN Course “Belajar Javascript”](#)

[HACKERRANK Course “SQL \(Intermediate\)”](#)

[HACKERRANK Course “Java \(Basic\)”](#)

## SKILLS

---

HTML (Advanced), TailwindCSS (Intermediate), Express.js (Intermediate), MySQL (Intermediate), RESTful APIs (Intermediate), C, Python, Next.js, Java, Git, Docker, Postman.
